Russell 2500® Value Index

The Russell 2500 Value Index measures the performance of the small to mid-cap value segment of the U.S. equity universe. It includes those Russell 2500 companies that are considered more value oriented relative to the overall market as defined by Russell's leading style methodology. The Russell 2500 Value Index is constructed to provide a comprehensive and unbiased barometer of the small to mid-cap growth market. An investor cannot invest directly in an index.

Russell 2500® Index

The Russell 2500 Index measures the performance of the small to mid-cap segment of the U.S. equity universe, commonly referred to as "SMID" cap. The Russell 2500 Index is a subset of the Russell 3000® Index. It includes approximately 2500 of the smallest securities based on a combination of their market cap and current index membership. Past performance does not guarantee future results. Index returns do not reflect payment of any expenses, fees or sales charges an investor would pay to purchase the securities the Index represents. Such costs would lower performance. The graph of the Russell 2500 Index is for illustrative purposes only. An investor cannot invest directly in an index.
